Mark,

John shared a copy of your inquiry. I find your comments highly offensive. It seems you're willing to engage in the same type of liable that you now claim to protest. Let me be clear. I have not, nor have I ever, gone after another candidate for judge (Kachinsky). Your claim to the contrary is a bald lie! I will tell you once, and only once, behave yourself.

Bill Lennon

Mark-

Please make your referral to the Oshkosh Police Department/Winnebago County Sheriff's Department--whoever has jurisdiction. Jurisdiction for investigative purposes may be difficult to determine in this time of crime.

If neither agency will take the case because of jurisdictional issues, please get back to me. Bill may authorize the DA investigator to conduct the investigation.

I am not familiar with a procedure that will allow us to find out who is who on a blog. My understanding is that individuals can enter any name, real or fiction, and just start typing. Also, the individual may not do this from a recognizable computer. So, I am not too certain if a subpoena would get us any useful records. As an aside, there was an article in Wisconsin Lawyer on this exact issue (which I threw out) but I believe the article dealt with civil liability.

Please let me know if you need any assistance.

John Jorgensen

I want to know the process in making a complaint to your office for criminal prosecution. I have learned that the FOB website (incidentally in which Mr. Balskus participates in) has been posting comments that allege that Diane is sucking Judge Gritton's cock and that she and Tom and Lori Gritton engage in three-some sex. I believe this falls under 042.01 Defamation and 942.03 Giving false information for publication.

I am curious as to how to make a referral, since your boss apparently will go after other candidates for judge (Kachinsky) when another attorney makes a complaint 4 years after the fact and your office has been diligently

pursuing Joe Paulus for corruption. I am very serious. If I need to make the referral to Lennon, I will. I want this investigated (and your office has the resources to investigate computer crimes better than the general public).

Thanks
